Seidor One

<http://seidor.com/>

Founded in Lebanon in 1990 by dedicated specialists, the Nutrition and Diet Center is the first dedicated diet and weight loss health center in the Middle East. With more than 300 clients to serve every month,, diet center needed an efficient ERP system that can run all their internal business processes smoothly: Production, Finance, Clinic, Accounting, HR, and Purchasing

Objectives

- Manage the business operation smoothly
- Customized clinic management software that simplifies the complexity of our internal processes
- Improve tractability and accuracy in financial reporting

Why SAP and Partner

SAP Business One is a very innovative yet simple ERP to use. We chose Seidor One for their qualified and committed consultants to ensure successful and smooth implementation

Benefits

- Link all operational activities to the financial as well as production processes
- Greater management of the clinical services and food production
