

Complete control and visibility of GHC data with SAP® Solutions

Before: Challenges and Opportunities

- GHC needed an access to real time data across departments
- Having a clear visibility and credible reports allowed faster decision making
- Replacing outdated management system with an efficient advanced ERP

Why SAP and Seidor One

- SAP Business One is a worldly renowned ERP system
- SAP Business One is easy to use and can be integrated without interrupting our services
- Seidor One has local offices and expertise
- Seidor One is a leading partner in the region

After: Value-Driven Results

- Having a unified system for all member states allowed an optimized cooperation to identify and solve common health issues
- Access to real time data has improved our research sources and minimized the time needed to produce a report
- Ensure all member states are up to date with the latest strategies and practices

“**SAP Business One** has optimized our cooperation across member states and allowed us to offer more comprehensive council.”
