Expanding the business and growing with SAP Business One® and Seidor One

Guttmann is a company specialized in providing aluminium to other enterprises, specially for the construction of skyscrapers. To manage stock, demand and delivery services, they found out that they needed an ERP system and realized that SAP Business One was the right one for them with the help of Seidor One

Before: Challenges and Opportunities

- They had a really big stock.
- They needed to be better equipped for a wider expansion.

Why SAP and Partner

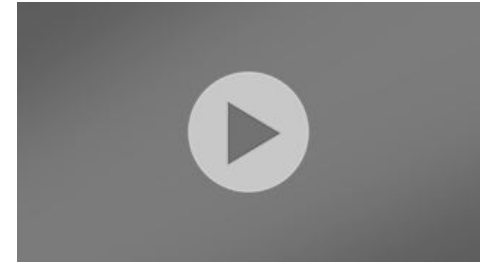

- They had to move from their accounting system to an ERP system.
- Seidor One was really close.
- Seidor One provided their service from the beginning.
- SAP Business one really answered their requests.
- SAP Business One provide accurate data.
- Life access to their stock and sales.

After: Value-Driven Results

- SAP Business One turned their output into a credible, reliable output.
- It allows them to answer client on time.
- They feel prepared for the future.

“I look at SAP Business One as a partner able to support me while doing an expansion”

Ramzi Jalbout, CEO, Guttmann
