Objectives

- Improve the quality of reports to decision makers and managers
- Provide easy access to real time data for all departments and mainly for the client service
- The ability to track the performance of multiple brands at once

Why SAP and Partner

SAP is a renowned name and offers a comprehensive ERP solution. Seidor One is the leading partner in this region with many awards

Benefits

- Managers have daily access to detailed reports related to their departments
- Client service has improved dramatically thanks to real time data accessed by sales and customer service
- We saved time and cost by successfully monitoring the performance of multiple brands at once

“SAP Business One proved to be an efficient ERP with major impact on management performance. It helped us optimize our daily operations across multiple brands.”
