Building last generation and modern Sky grapes with the help of **SAP Business One**® and Seidor One

Teejan contracting is a construction company whose history dates back to 1974. In 2011 they started business in the UAE and now they are 1.200 employees. Their software was limited and did not offer a really thorough internal control. They have now changed to SAP Business One and they have noticed that, by facilitating everyday work, SAP has helped to increase staff productivity and professional skills.

Before: Challenges and Opportunities

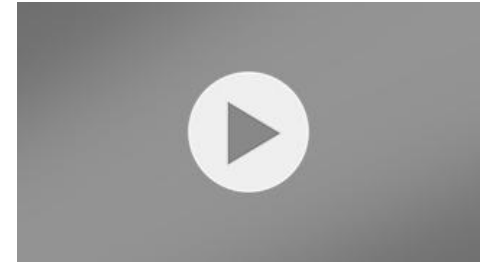

- Needed proper and accurate cost, HR and accounts management
- Limited system with minor internal control

Why SAP and Partner

- After thorough research, SAP Business One met all of their needs
- Seidor One helped to tailor reports for a construction company
- SAP Business One comprised all the features they needed with an user-friendly design

After: Value-Driven Results

- Facilitates everyday work for the employees
- Increase in productivity
- SAP generated a change of mentality in the company

Featured Partner:

“SAP Business One is a partner for lifetime”

Tarek El Zein, Chief Finance Officer, Teejan
