Did You Know?

Companies that run SAP Business ByDesign through SEIDOR have 0% CAPEX investments.

Let's Talk About Your Business

You are a growing business, and you need to implement a low cost unified, agile, and efficient ERP without the high cost of an ERP. You need to consider the SAP Business ByDesign Service Industry Without Projects. This solution provides you with the functionality and integration of large-scale ERP solutions without the cost and complexity traditionally associated with large ERP implementations.

Our SAP Business ByDesign solution offers all of the main features required to run your business, from Customer Relationship Management, Finances and Accounts, Project Management, Human Resources, and Procurement. It helps you manage your Service Industry Projects, Cost Accounting and Inventory Management.

"It does everything we need it to do and more."

- By Rob Sinton, TasteTech

You will be able to unify the information across your departments seamlessly on one application with one core interface. At the same time, you will benefit from all the functions associated with a large ERP implementation at a fraction of the cost. Your information will be maintained on the cloud which will make it easier to access, more secure and cheaper to maintain. SAP Business ByDesign has reconfigured best practice business processes designed to support your business needs. SAP Business ByDesign is also built on the advanced technical backbone of the SAP ERP technology and it uses the same advanced analytics engine giving all the integrated reporting functionality that you require.

SAP Business ByDesign is designed for growing business, it offers you stability, security, best of breed solutions and reconfigured service industry business processes all hosted in the cloud that will reduce your maintenance and implementation costs. SEIDOR is a Platinum Level SAP partner and together we will assist you in every way to ensure that you implement the best fitting technical solution in your organization.

Benefits Of Using A Cloud Instance

SAP Business ByDesign allows you to have access a cloud instance built and configured to your specifications. It is a complete ERP solution hosted remotely which you can access 24/7/365. Using a Cloud based solution means that you will not pay for:

- ✓ **Hosting Of The Solution** – no server, infrastructure or running costs.
- ✓ **Support** – you will have a direct line to a global technical team at all times without interruption.
- ✓ **System Maintenance** – system maintenance takes place by SAP eliminating the need of an on-site maintenance team.
- ✓ **Solution Upgrades** – cloud based solutions upgrades are included in your subscription fee.
- ✓ **Mobile Capability** – all SAP cloud based applications support mobile applications.
- ✓ **Security** – hosted by SAP, audited regularly and ISO 27001, ISAE-3402, and SS16.

SAP ByDesign – Key Benefits

Oriented to Professional Services companies which sell recurring services and need to integrate the business processes with the Back-Office to make better business decisions.
