SEIDOR

SAP® Qualified
Partner-Packaged Solution

SAP Platinum Partner
Seidor is member of United VARs
Platinum Partner SAP.

SEIDOR LET'S/4 PLAN
All roads lead to SAP S/4HANA

By 2027, all companies are expected to migrate from SAP ECC to SAP S/4HANA. The destination is the SAP intelligent ERP solution, based on the HANA in-memory platform, which helps companies to improve their performance and evolve to adapt to a constantly changing environment.

Plan your journey towards SAP S/4HANA

There is no set route to SAP S/4HANA; so SEIDOR adapts to your needs and journeys with you, the whole way there. We help to prepare you from the initial assessment to the installation of SAP S/4HANA, with the option to include managed services and subsequent improvement and innovation projects.

To help you plan your journey, we provide a packaged conversion preparation service called **SEIDOR Let's/4 Plan**, from the **SEIDOR SAP S/4HANA Conversion Factory**, which includes a **technical study** and the option for a **draft conversion.**

Technical study: Evaluates the impact of a conversion project, analysing infrastructure needs and creating a conversion strategy and schedule.

Draft conversion: As well as a technical study, we carry out the first conversion cycle which, by executing the post SUM processes and validate the consistency of converted data for a full diagnosis, allows us to carry out your first tests.

And now we've updated our conversion packages so you can plan and execute your journey by using RISE with SAP.

Let'S/4 Plan - **SAP** S/4HANA conversion analysis		
S size	M size	L size
Number of users (up to)	50	200	500
Functional Scope	FI, CO, MM, SD	FI, CO, MM, SD, PP, CS, QM, PS, QM, PM, WM, HR	FI, CO, MM, SD, PP, CS, QM, PS, QM, PM, WM, HR
Number of add-ons (up to)	1	2	3
Number of integration with other SAP systems (up to)	1	3	5
Number of custom objects (up to)	500	1.500	3.000
Training workshops	3	3	3

Deliverables:

- Simplification items check.
- Custom code impact and corrective actions definition.
- Infrastructure needs and technical requirements report.
- Data consistency log and diagnostics.
- Pre-checks SIC report.
- Training workshops material.
- Conversion strategy.
- Timeline proposal.
- Efforts estimation.

Let'S/4 Plan - **SAP** S/4HANA draft conversion		
L size	M size	L size
ECC system	ECC 6.0 EhP 4 or later, unicode	ECC 6.0 EhP 4 or later, unicode	ECC 6.0 EhP 4 or later, unicode
Database	Any BD, up to 500 Gb	Any BD, up to 1 Tb	Any BD, up to 2 Tb
Cloud infrastructure included [1]	yes	yes	yes
Conversion cycles	1	1	1
Standard SAP Fiori apps	5	5	5
Custom code adaptation	no	no	no
Integration with other systems (SAP or not SAP)	no	no	no

Deliverables:

- System converted to **SAP** S/4HANA (without custom code adaption or integration with external systems).
- Up to 5 Fiori apps activation.
- Pre Sum activities report.
- Post Sum activities report and issues detection.
- SPDD report.

[1] dedicated cloud infrastructure, 0,5Tb / 1Tb / 2Tb for S / M / L sizes, MS Windows / Linux OS and SAP ASE / MS SQL Server DB

Advantages

Be prepared before you start the journey and understand the impact of the route you choose to take:

- Evaluate the impact of migrating from SAP ECC to SAP S/4HANA.

- Share out the knowledge of our experts through training workshops.

- Set out the adoption strategy and the roadmap for implementation.

- Realistically estimate the resources needed for the project.

- Identify the preparation work needed to facilitate the conversion and the innovation and improvement projects that could be carried out later.

The SEIDOR SAP S/4HANA Conversion Factory

has SAP-qualified packages and a multi-disciplinary team that is 100% dedicated to conversions.

We have put together an EMEA centre for expertise to provide you with a flexible service, whether that's face-to-face, near-shore or off-shore. We are also connected to the United VARs SAP S/4HANA Conversion Factory Network to ensure quality in our processes and international coverage.

Complete your conversion in a way that is secure, time-efficient and cost-competitive.

Can we journey with you?

Why SEIDOR?

integrated services and solutions in software consulting and IT services. The company provides a wide range of solutions and services: consulting, infrastructure, installation, application development and maintenance and outsourcing services.

They have been operating for 40 years and have offices in Europe, Latin America, United States, Middle East and Africa.

As an SAP Platinum Partner, SEIDOR has extensive experience in SAP implementation with the ability to work in any country in the world through United Vars.
