SAP Ariba

Source and Save: Sustainable and efficient savings

The fastest way to implement SAP Ariba

SOURCE & SAVE PACK is the new SEIDOR functional bundle based on **SAP ARIBA Solutions** that combine efficiency and transparency in **Supplier Management** and savings and improvements in management times for **RFx tender** events, **for companies seeking** to contribute to sustainability **by reducing their carbon footprint in the supply chain.**

Three-step methodology:

• With our built accelerators with SAP Activate, we achieve fast implementation in order to start obtaining benefits from the licences contracted as soon as possible.

• Content preconfigured for RFx based on best practices and our extensive market experience to optimize the use of the Guided Sourcing solution in sourcing.

• Digitalizes supplier registration and approval (SLP) using forms pre-designed in line with the needs of the market and industry.

SEIDOR Ariba Add On Library

SLP Environment delivered by SAP Configuration	SOURCING Environment delivered by SAP without Configuration
SLP supplier request	SOURCING RFI/RFP events
SLP supplier registration	SAP ERP Integration of RFQ to create SR
SAP ERP Integration of suppliers (BP)	SAP ERP Purchase Order Integration

Project Management

Training of Key Users
